Score Generators

These are external or internal scripts, that produce note events after setting parameters.

Clouds	script	create textures and grains
Ex Machina	Midi	Euclidian Randomizer
CsoundAC	ext.	NOT YET FULLY WORKING, algorithmic composition tool
nGen	ext.	export midi and let Midi Transfer do the updates or without
athenaCL	ext.	export midi and let Midi Transfer do the updates or without
Cmask	ext.	NOT YET, must be able to convert to midi
MIDIFunction Generator	CabbageVST	REPAIR
MidiWaves	CabbageVST	PreFX

Midi Output Tools
Midi effects to be put after notes being played

ReaControlMidi	JS	filter midi events, log midi data, ReaBank
Audio to Midi Drum	JS	takes an audio signal, set a treshold and create midi triggers, https://www.youtube.com/watch?v=fZhU0HyLreI,
MK Slicer	script	slices up rhythmic audio, creates midi triggers, https://www.youtube.com/watch?v=fdhSaO0a76Q
Midi Note Repeater	JS	PreFX, https://www.youtube.com/watch?v=Ja2syQDupps, 2 versions
MidiWaves	CabbageVST	PreFX
Loop Sampler w Triggers	JS	???
Midi Arpeggiator v2	JS	PreFX, use chords
Midi Arpeggiator	CabbageVST	PreFX, use chords, complicated
Midi Chordenizer	JS	harmonizer
Midi Choke	JS	cuts off notes
Midi Modal Randomness	JS	input plugin
Midi Note Repeater	JS	monophone or polyphone
Midi Note Randomize	JS	only one note to randomize
Midi Pitch Wheel LFO	JS	adds LFO like randomness
Quantize	built-in	with strength option
Invert	built-in	reverse vertically, remains within note key range
Reverse	built-in	reverse horizontally in time
Midi Randomization Tool	script	heavy impact, Undo, mutes notes and transposes notes
Random Note Pitch	script	randomize notes within selectable limits
Humanize Notes	built-in	Timing, velocity, bias, random seed
Transpose Midi	built-in	simple transpose
Legato	built-in	let all notes touch each other
Transformer	script	old Cubase Midi filter
Midi GenerateRandomArp	script	kawa, not functional?
Midi Connect Two Pitch	script	select 2 or more notes to get staircases
Midi Velocity Interpolation	script	not quite clear
Midi Morse Split Random	script	a bit clear
Microrhythms	script	does work but needs more attention
Markov Chains	script	not quite clear, needs more attention
Midi Toolkit	script	copy and paste properties of notes

Mute CC	script	self-made
ReaTune	built-in	makes midi out of audio
MIDI CC To Note	LV2	plays notes when drawn CC, using the grid.
MIDI Remove Active Sensing	LV2	PreFX, useful as Midi input filter
MIDI Sostenuto	LV2	adds to the duration of the Midi note
MIDI Performer2	JS	assigns different buses and routings
Midi Logger	JS	midi logger

Midi Input Tools

ReaControlMidi	JS	filter midi events, log midi data, ReaBank
MIDI Modal Randomness	JS	PreFX, FX runs smoothly, cuts up to structures

Granular

Clouds	script	create textures and grains
Amaranth	JS	granular, load sample and FREEZE freezes midi notes forever,
Scanned	CabbageVST	not ready
Ribs2	VST	crazy granular, interesting, very good http://youtube.com/watch?v=1iFMZsLiZOo, for live use ONLY, samples cannot be saved
oi grandad	VST3	granular, pretty complicated, heavy CPU https://www.youtube.com/playlist?list=PL8Rp79UJ5uBCSntUW93i3953yPq0DeSF
Grain3	CabbageVST	easy and fun
MgranularMB	VST3	effect, easy and fun, paid
Agotlunar	VST	simple granular effect

Samplers

ReaSamplOmatic5000	built-in	modulate everything included loop-points, no filter
Samplv1	LV2	micro-tuning, filter, NO loop-points movement
LSP Multi-Sampler	CLAP	NO pitch shifting with keys, does stretching https://lsp-plug.in/?page=manuals&section=multi-sampler_x24
Granular Loop Sampler	JS	weird
Super8	JS	samples a sound and repeats it rhythmically https://forum.cockos.com/showthread.php?t=169085

Synths

Terrain	CLAP	sounds great, organic, horns, FM
Odin II	CLAP	Scala scales, sounds good
SurgeXT	CLAP	Scala scales, very versatile
Vital(ium)	VST3	very versatile, Scala scales,
Serum	VST3	slow GUI
Osirius	CLAP	crashes every time, known bug
Tyrell N6	CLAP	basic synth
Zebralette3	CLAP	modulates well, interesting, to study
Pendulate	VST3	https:/www.eventideaudio.com/plug-ins/pendulate/, GUI doet gek
Padsynth	LV2	can crash, basic pads
Rippler2	JS	is excited by noise, acoustic model
Partials	JS	waveshaping sounds, physical, loads sample with loop, convolution
JSWavesynth	JS	Nice!

Audio To Midi

MK Slicer	Audio Midi	Audio to midi
Dodo MIDI	VST3	makes midi out of audio, very nice https://www.youtube.com/watch?v=G9O2lAFHPDE&t=7s
NeuralNote	VST3	makes midi out of audio, very nice https://github.com/DamRsn/NeuralNote

Audio Output FX

Dynamic Slicer	built-in
